

Exam-Night Review ? 3rd Secondary

DEMO FILE ? replace with the real document from the dashboard.

THE NIGHT BEFORE THE EXAM:

1. Review the formula sheet (10 minutes).
2. Solve ONE short mock exam under time pressure.
3. Read the most common mistakes list.
4. Sleep early ? a rested mind solves faster.

Common mistakes to avoid:

- Forgetting to write units in word problems.
- Sign errors when moving terms across =.
- Skipping the verification step in equations.
